PROFESSIONAL OVERVIEW

A highly motivated and results driven student software developer with a strong foundation in programming and problem-solving. I am currently pursuing a Diploma in ICT Application Development at Cape Peninsula University of Technology. Hands-on experience in developing and maintaining software and somewhat hardware solutions. Passionate about learning new technologies, while collaborating with teams to deliver high quality work and software products. Hardworking and always reliable.

WORK EXPERIENCE

I have worked on the following projects:

Car Voting System (University Project)

GROUP PROJECT

Developed an application system using Java that displayed an overview of car details and allows users to select from a variety of cars. Used a variety of Java Swing objects for the GUI (graphical user interface)

EMERGENCY24 UBER AMBULANCE APPLICATION (University Project)

GROUP PROJECT

Developed a faster ambulance application using Kotlin that allows patients to hit a large red button on their device in case they need immediate medical assistance

CRUD procedures and an intuitive user interface (UI) were implemented to improve usability, while object-oriented programming (OOP) techniques were used to increase code efficiency

Relational Database in MySQL (University Project)

GROUP PROJECT

Created SQL statement queries for ERD Diagrams
Created Databases with SQL Statements.

DREAM MOTORS HOBBY SHOP APPLICATION (University Project)

GROUP PROJECT – STILL IN PROGRESS

Developing a hobby shop e-commerce toy shop where users can shop toy cars and if they want to customize the toy car to their liking.
We are using IntelliJ IDEA and REACT coding in JAVA to develop this application.
Using a variety of SpringBootApplication Objects.

EDUCATION

Secondary Education

Grabouw High School | Grabouw |
Western Cape
National Senior Certificate (Matric)
Matriculated: 2022

Tertiary Education

Cape Peninsula University of Technology
| District 6 | Cape Town
Diploma in ICT Application Development
2023- Present

SKILLS

Programming:

- JAVA (In Progress)
- HTML in NOTEPAD++
- MYSQL (In Progress)

Additional Skills

- Time management
- Leadership
- Adaptability
- Teamwork
- Hardworking
- Reliable

MICROSOFT:

- WORD
- EXCEL
- POWERPOINT
